Resources Sharing Agreement

The LBWCC Libraries/Learning Resource Center participates in LYRASIS (Southeastern Library Network) resource sharing arrangements, and may elect not to purchase some materials if they are accessible through cooperative resource sharing. These arrangements provide access to additional materials through interlibrary loan; however, it does not release the library from its responsibility of providing adequate resources to faculty, staff and students. Participation in these resource sharing agreements is intended to supplement and enrich the resources available to LBWCC Libraries/Learning Resource Center.
