

CERTIFICATE OF COVID19 SKILLS PROFICIENCY (CC19SP)

COURSE DESCRIPTION

The Covid19 pandemic has created a crisis unlike any other in modern healthcare. Overburdened medical staff, limited PPE, struggling public health workers and overcrowded medical facilities are just a few of the many complications emerging daily. Guidance provided by the centers for disease control (CDC) and the world health organization (WHO) continues to pivot as the crisis timeline extends.

The 4MedPlus Certificate of Covid19 Skills Proficiency* is designed to dynamically update workers on the front lines of this pandemic regarding recommendations, regulations and shifting understanding of the Covid19 landscape. Bundled with relevant titles including infection prevention and barrier protection as well as contact tracing and telehealth topics, this bank of self-paced educational modules can help allied health schools, universities, health facilities and employers inform and educate their students or staff on this evolving health crisis.

POWERED BY 4PROPLUS
