

Veterinary Assistant Program

This program provides students an opportunity to obtain the necessary knowledge and skills to succeed in an entry-level position in the field of veterinary technology. Students who complete this program will be prepared to assist veterinarians and veterinary technicians in providing quality animal care including:

- Obtaining and recording patient information
- Preparing patients, instruments, and equipment for surgery
- Collecting samples and perform certain lab procedures
- Dressing wounds, assisting in diagnostic and medical procedures
- Communication with animal owners
